# NetDimensions Exams

A critical and serious part of learning is the assessment of what users have learned. Organizations often need a sophisticated, fully functional testing and exam solution. NetDimensions Exams is designed to cope with all levels and types of assessments — competency and skills tests, regulatory assessments, certifications, professional qualifications, knowledge assessments, quality assessments, as well as quizzes, surveys, questionnaires, and recruitment-related applications.

NetDimensions Exams maximizes the productivity of people involved in developing and managing assessments in order to help meet stringent regulatory compliance requirements. It enables your organization to manage the entire assessment process with optimal control and security in any type of high-stake environment.

Organizations use NetDimensions Exams to ensure consistent quality and security of assessments and assessment programs — from authoring questions, administration, scheduling, and delivering, to reporting and analysis. Organizations can then accurately measure employee competency and ensure they possess the appropriate skills at the required proficiency levels and certify that all relevant and necessary compliance requirements are met.

NetDimensions Exams is available as a standalone enterprise assessment solution or part of NetDimensions Learning.

## Key Features

### Robust & complete functionality

NetDimensions Exams is optimized for authoring, scheduling, delivering, tracking, and reporting:

- Competencies and skills assessments
- Regulatory and compliance assessments
- Licensing and certification assessments
- Quality assessments
- Knowledge assessments
- Performance assessments

### Designed for regulatory compliance

NetDimensions Exams was originally developed to meet the demanding requirements of highly regulated industries. It enables assessments to be treated and delivered as objects within the NetDimensions Talent Suite, thus extending the capability of ordinary assessment tools to include flexibility and power in the management of assessments.

### Best-in-class security

NetDimensions Exams' role-based security enables you to restrict access to assessments, assessment pools, questions, question pools, and related functions (such as authorization workflow control), creating individual and multiple level access codes, IP addresses/range restrictions, time and date access availability and more. These sophisticated security and audit tracking features ensure that all certification, training, assessment, and regulatory programs are successfully developed, implemented, and conducted.

### Other Features

Additional features include creating assessments with templates, scheduling and reviewing workflows, associating additional training materials to assessments (e.g. PDFs and PowerPoint presentations), automatic notifications for users/groups, integrating training history, importing/exporting records, generating custom reports, and tracking.

## Conduct assessments securely

- Sophisticated network location security and access code security with optional levels for workflow access during the exam management process
- Additional security options for user authentication, fixed IP address for exam delivery, supervisor passwords for second level proctored exams, and more
- Restrict and control test access by individual or multi-level passwords, IP addresses/range, number of attempts, availability start/end date and time, as well as minimum interval between attempts
- Enhanced authorization features in the question authoring and workflow approval processes

## Manage assessment programs effectively and efficiently

- Create multiple assessments with templates based on question pools
- Automatic creation of re-sit exams
- Comprehensive reporting capabilities
- Send reminders for regularly scheduled assessments (e.g. for re-certification or compliance purposes)
- Enable examinees to take assessments without pre-enrollment
- Provide automatic feedback during the assessment
- Track the entire assessment creation process
- Support both online and paper-based assessments

Contact us today and we will show you how NetDimensions Exams will enable you to efficiently manage your assessment, certification, and compliance programs.
